EDUCATION

Indiana University Bloomington

B.S. Computer Science — Software Engineering Concentration; Minor in Business

— **Scholarships:** 21st Century Scholar — Groups Scholar

Bloomington, IN

Aug 2023 – May 2027

TECHNICAL SKILLS

Languages: Python, JavaScript, SQL, HTML, CSS

Frameworks & Tools: Git, GitHub, GitHub Pages, VS Code, Xcode, Slate CRM, Asana, Microsoft 365, Adobe Suite

Systems & IT: Windows 11, PC Hardware Assembly, BIOS/UEFI Configuration, NVMe Storage, Driver Installation, Troubleshooting

EXPERIENCE

Indiana University

Web Services Coordinator

— Deploy and maintain production web content using a university CMS, ensuring consistent uptime and cross-browser compatibility across all pages

— Triage and resolve front-end, CMS, and formatting defects by reproducing issues, isolating root causes, and implementing targeted fixes to reduce repeat incidents

— Coordinate content migrations, QA testing cycles, and website launches using **Asana** for project tracking and **Slate CRM** for workflow, data management, and reporting

Indiana University

Undergraduate Instructor — Informatics

— Facilitated weekly lab sessions for **100+ students** covering Python programming, HTML/CSS development, and core CS concepts including algorithms and data structures

— Delivered structured code reviews and 1-on-1 debugging support, systematically identifying and resolving syntax, logic, and runtime errors across student projects

— Developed supplementary exercises on web development best practices, improving student performance and engagement in lab assessments

Abercrombie & Fitch Co.

Freshman Forum — Career Development Program

— Competitively selected for a virtual program in business strategy and retail analytics; contributed to a team case study with data-driven recommendations presented to company leadership

PROJECTS

SHPE Chapter Website | HTML, CSS, JavaScript, Git, GitHub Pages

— Architected and deployed a fully responsive, multi-page organization website hosted via GitHub Pages, serving as the chapter's primary public-facing platform for 50+ members

— Implemented Git-based version control with branching and iterative QA testing; continuously deploy feature updates and design improvements based on user feedback

High-Performance Development Workstation Build | Systems Hardware, BIOS/UEFI, Windows 11

— Designed and assembled a custom development workstation (AMD Ryzen 7 7700X, NVIDIA RTX 3070, 32GB DDR5) from component selection and compatibility research through full system integration

— Configured BIOS/UEFI firmware, installed OS and device drivers, and partitioned dual NVMe SSDs for a boot/storage split — resolving hardware conflicts through systematic troubleshooting

LEADERSHIP & ACTIVITIES

Society of Hispanic Professional Engineers (SHPE)

Treasurer & Lead Project Developer

— Manage a **\$7,000** organizational budget, tracking expenditures, processing reimbursements, and maintaining financial accountability across all chapter events

— Lead technical development and ongoing maintenance of the chapter website, coordinating feature updates, code reviews, and deployment cycles

— Represent chapter at SHPE national network events and university engineering fairs, recruiting members and building connections with industry partners

Omega Psi Phi Fraternity Inc.

Vice Basileus & Keeper of Finance

— Oversee executive board operations, inter-chapter communications, and financial planning for a **20+ member** organization; coordinate service initiatives and campus engagement programs
